Bringing The Spa
To Your Home

The Aspara®

February 2006 – The Aspara and The Asian Spa are honoured to share with the rest of Singapore its very own series of exquisite spa products – The Aspara Pure Spa Blends.

Only The Best, Nothing Less

Nothing but the best – The Aspara Pure Spa Blends series consists of products made only from the finest ingredients, and boasts a series of Exfoliating Body Scrubs and Aromatic Massage Oils that will help bring the spa experience home. With these, you will be able to replicate for yourself a heavenly sanctuary amidst the hustle and bustle of modern life, all within the comforts of home.

Orange & Lavender Sugar Body Scrubs

Sugar, spice and all things nice. Indeed, our Orange and Lavender Sugar Body Scrubs are all that and more. These innovative exfoliating body scrubs are truly one of a kind, the first ever in the industry. Unlike the usual cream-based or salt-based body scrubs widely available in many spas, our new range of body scrubs are, as their names speak for themselves, literally made of sugar.

Gentle Yet Effective

Unlike salt-based scrubs, our Sugar Body Scrubs are gentler on the skin, without compromising their effectiveness. A mixture of sugar crystals, pure extracts, the finest essential oils and high quality oils such as macadamia nut, sweet almond, and jojoba oils, the scrubs promise to leave your skin silky smooth and petal-soft. With ingredients so yummy, they sound almost good enough to eat.

Irresistible Fragrance

And if fragrance is your thing, these sugar scrubs are a must-have. The Orange Sugar Scrub, in particular, emits an uplifting, fruity citrus scent that will perk up any dull day. The Lavender Sugar Scrub on the other hand guarantees to ease all stress and strain. Providing vastly different experiences, the Orange Sugar Scrub leaves one feeling truly refreshed and invigorated while the Lavender Sugar Scrub serves to calm and soothe. Nonetheless, both count for tantalizing and exquisite treatments that will leave you craving for more.

Aromatic Massage Oils

For the uptight and highly-strung, a massage, coupled with our Massage Oils, may be the answer to your prayers. With a variety of scents to choose from – Mountain Mistral, Sunshine Burst, Cool Breeze and Blue Sky, our custom blended aromatic massage oils contain premium ingredients and the purest essential oils, promising nothing less than a blissfully soothing and therapeutic time. Aside from being good relaxants for relieving stress and muscle aches, the scents, when inhaled, work therapeutic wonders and promote an overall sense of well being. On top of it all, the ingredients in our massage oils have been carefully selected to impart moisturizing, calming or uplifting properties.

Come Indulge In The Experience

So come, spend an idyllic day with us at The Aspara in the Orchard or The Asian Spa. Indulge in an Orange or Lavender Sugar Scrub. Savour the moment and let the soothing ambience embrace you. Immerse your entire being in this exquisite experience and let your mind drift off into blissful oblivion.
